Item from the Daily Log - 23 January 1953

25X1A

[REDACTED] General Counsel, and Mr. William Penn, Chief Underwriter for [REDACTED], conferred with representatives of I&S, Personnel, and General Counsel. They pointed out their present policy of limiting insurance to \$5000 for CIA personnel. They hoped some method could be worked out to avoid their taking potential risks. It was tentatively agreed that they would send applications to the Personnel Director who would return them without notation if the individual at that time were not being sent into hazardous duty. They will check the matter with their Underwriting Committee and advise Mr. Meloon further.
